## “The Original” Shaft Mount Reducer

Fully TXT compatible, designed to last

WorldWide Electric’s “The Original” Shaft Mount Reducer is dimensionally equivalent to the popular TXT series shaft mount reducers to provide you with the perfect solution for all of your most demanding applications. Designed to accept all TXT compatible accessories without issue, “The Original” allows you to take full advantage of your existing safety stock and installed base. For new applications, WorldWide Electric offers a complete line of our own motor mounts, belt guards, tapered bushing kits and backstops to compliment your existing operations.

### Features at a Glance

- Box sizes 2-10
- Speed Ratios 15:1 and 25:1
- Torque arm included
- TXT compatible

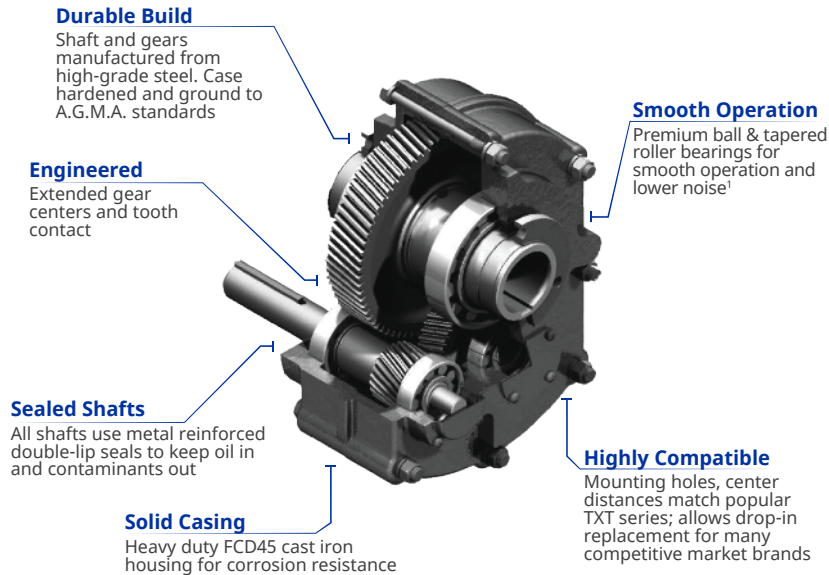

*For more details, visit [wwec.co/SMRG](http://wwec.co/SMRG)*

### Industry Standard and In Stock Today

“The Original” is available in industry standard box sizes from 2-10, and output bores range from 1-15/16” to 5-7/16”. WorldWide Electric’s full range of accessories are fully compatible with the popular TXT style reducers, so you’ll know they will fit with many brands.

Our standard two-year warranty and our renowned in-stock availability combined with 24/7 sales, application and technical support and service will give you the peace of mind you need to feel confident in your operation.
