Helical Bevel Speed Reducers

Foot-mounted, NEMA quill input, Right Angle, Hollow Bore Output

The WorldWide Electric "KHN" Series Helical and Bevel Speed Reducer delivers a broad range of power and output torque to support a wide array of applications. The "KHN" Series standard NEMA quill input design simplifies the task of retrofitting – just use an off-the shelf C-face motor and resume operation. No more serial number requirements for ordering costly proprietary motors with long lead times!

Features at a Glance

- Quiet Operation
- Drop-in compatibility with popular brands
- Ratios from 5:1 – 120:1
- Power ranges from ¼ – 30 HP
- Robust FCD45 cast iron housing

For more details, visit wwec.co/KHNR

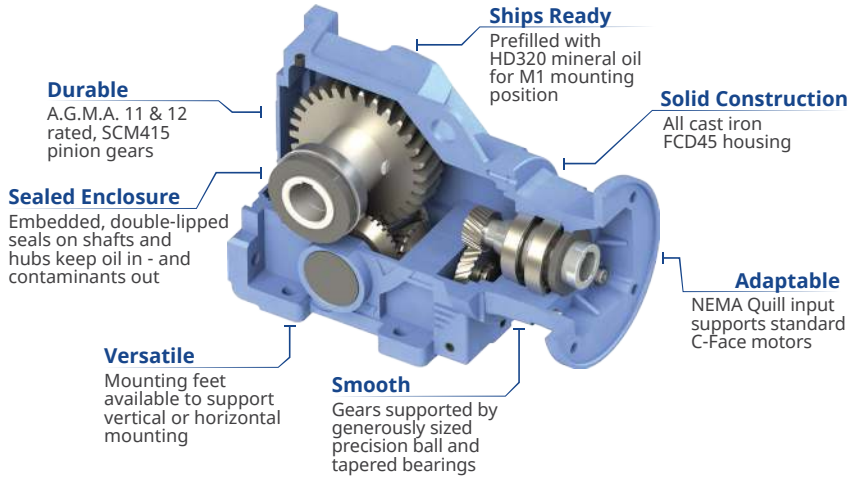

NEMA Quill Input Flange

Foot Mounted Design

KHN Reducer Features

- Drop-in compatibility with many brands
- Low noise, high stability
- Available in 5:1 - 120:1 ratios
- ¼ - 30 HP loading capacity
- 20CrMO alloy steel pinion and gears
- Flexible installation: 6 mounting positions

Model Number Selection

KHN model numbers are easy to read and order. The box size, nominal ratio, and motor frame are included right in the model number for easy identification[‡]!

Sample Model Number "KHN77-30/1-H-213/5TC" appears below.

	5	
	7.5	
	10	56C
	15	143/56C
	25	145TC
	30	182/4TC
	40	143/5TC
37	50	182/4TC
47	60	184TC
67	70	213/5TC
77	80	254/6TC
87	110	213TC
97	120	254TC
Box Size	Nominal Ratio	Motor Frame

KHN 77 - 30 /1-H- 213/5TC

[‡]Not all combinations indicated by this table are possible. Please contact a representative or distributor for more information on available models.

Extensible and Adaptable

Need a shaft output helical bevel gear unit? WorldWide Electric also offers a single and double output shaft kit that mounts directly into the KHN series hollow bore helical bevel gear reducer. Reduce your inventory cost and stock more output options with KHN shaft kits.

KHN Single Output Shaft Kit
Double Output Shaft Kit also available
